CHARLOTTE FIREFIGHTERS' RETIREMENT SYSTEM

428 East Fourth Street • Suite 205 • Charlotte, North Carolina • (704) 626-2728 • Fax (704) 626-7365

January 21, 2025

Honorable Mayor and Members of City Council, Charlotte, North Carolina, Members of the Board of Trustees, Charlotte Firefighters' Retirement System, and Participants of the Charlotte Firefighters' Retirement System:

The Annual Financial Report ("Report") of the Charlotte Firefighters' Retirement System ("System"), a Component Unit of the City of Charlotte ("City"), North Carolina, for the fiscal year ended June 30, 2024, is herewith submitted. The Board and the System's staff are responsible for the preparation and presentation of the financial information and all other data contained herein, and believe that the Report based on accounting principles generally accepted in the United States of America, presents fairly and consistently the System's financial position and results of operations and conforms to the standards of governmental accounting and financial reporting principles as promulgated by the Governmental Accounting Standards Board (GASB).

HISTORY

The System was organized pursuant to Chapter 926 of the 1947 Session Laws, as amended, of the State of North Carolina, and is officially known as the Charlotte Firefighters' Retirement System Act ("Act"). The System was established on the fifth day of April 1947, for the purpose of providing retirement, disability, and survivor benefits to the uniformed employees of the Fire Department of the City of Charlotte. The System retains a Letter of Determination from the Internal Revenue Service.

ADMINISTRATION OF THE SYSTEM

The administration and responsibility for the proper operation of the System is vested with the System's Board of Trustees ("Board"), which is comprised by the following Trustees as defined by the Act: (a) a Chairperson who is a Mecklenburg County resident and who is appointed by the Resident Judge of the Superior Court of Mecklenburg County to serve as Chairperson for a three year term; (b) three Citizen Trustees who are Mecklenburg County residents and who are appointed by the Resident Judge of the Superior Court of Mecklenburg County for three year staggered terms; (c) the City Manager, who serves by virtue of their position, or some other City department head or employee as designated by the City Manager; (d) the City Finance Director, who serves by virtue of their position, or a deputy finance director as designated by the Finance Director; (e) the City Treasurer who serves by virtue of their position; (f) three Member Trustees who are elected by the active Members for three year staggered terms; and (g) one Retiree Trustee who is elected by the Retirees for a term of three years.

The current Board members are listed on page 8.

COMMITTEES

The Board operationally functions under a committee structure. An Investment Committee and a Benefits Committee are annually appointed by the Chairperson of the Board to monitor, fact-find, and recommend actions for the Board's consideration. Although not required, the committees have generally been comprised of at least three trustees with one committee member being a Citizen Trustee, another a Member Trustee, and the other ex-officio (i.e., City official) Trustee. During the past fiscal year, John M. Carr, Citizen Trustee, served as Chair of the Investment Committee and Melinda Manning, Citizen Trustee, served as Chair of the Benefits Committee. Other committees may be appointed for specific projects at the discretion of the Chairperson.

PROFESSIONAL SERVICES

The Board employs the services of various professionals to aid it in its fiduciary responsibility for the effective and prudent management of the System. These professionals include: (a) a full-time Administrator who is responsible for the supervision of System staff and administration and coordination of all System operations and activities in accordance with the rules and regulations of the Act and the policies and direction of the Board; (b) the City Attorney and their staff serve as the legal advisor to the Board although additional outside legal counsel may be engaged by the Board from time to time for specialized services; (c) a consulting actuary who is engaged by the City of Charlotte to perform such studies and evaluations of the System as may be necessary and/or desirable in connection with the System's administration and funding, including preparation of the Annual Actuarial Valuation to determine the adequacy of the funding of the retirement benefit liabilities accrued by System members; (d) an independent auditor engaged by the Board on an annual basis to determine whether the financial statements present fairly, in all material respects, the financial position of the System and the results of its yearly operations in conformity with generally accepted accounting principles; (e) a Medical Board appointed by the Board to review and evaluate medical evidence and propose recommendations regarding disability retirements; (f) investment management professionals employed to invest the System's assets consistent with the objectives and direction of the Board, and (g) an investment consultant to advise the Board on matters of investment policy and strategy, conduct manager searches and monitor performance of the investment managers.

The Board may engage other professionals with expertise in various fields for specific services as deemed necessary.

FINANCIAL REPORTING

An annual report of the financial and actuarial condition of the System is prepared and submitted to the City Council. The annual report to City Council contains, but is not limited to, the auditor opinion and statements contained in the report of the independent auditor. The annual actuarial valuation report and the actuary's valuation certification will accompany the annual report. Additionally, a copy of the annual report to City Council is provided to each of the fire stations and fire department administrative offices of the City of Charlotte.

MAJOR INITIATIVES

The Board continued to work with the City on a funding initiative and requested that the City update the previously approved funding schedule to pay the Actuarial Determined Employer Contribution (ADEC) within 5 years. As part of the funding initiative, the Board researched additional pension reform options that could help to close the current contribution deficit. The City honored its commitment to funding the plan and approved an increase effective beginning with FY2025 equal to one-fifth of the difference between the current employer contribution rate and the ADEC for a rate of 25.31% effective July 1, 2025. The Board plans to provide a recommendation of pension reform for the City's consideration in FY2025. The Board will continue the funding discussion into FY2025 with plans to provide a recommendation of pension reform for the City's consideration in FY2025. The Board approved administrative changes that support business continuity and succession planning.

In consideration of the Investment Committee's fiduciary responsibilities, they performed an RFP for the System's investment manager consultant. The Committee conducted the search, had additional meetings for discussion and a meeting with potential consultants. The Committee recommended to the Board a new contract to the current consultant.

During the year, the Investment Committee spent considerable time reviewing the performance of all existing managers. The Committee met with each manager. As a result of continuing global market and economic volatility including the S&P 500 reaching new heights driven by a handful of stocks, mixed world equity markets depending on location, and lower real estate property valuations, the Committee reviewed the target asset allocation of the portfolio and reviewed risk management policies. This included in-depth discussions with investment managers and the investment consultant.

Investments and related investment managers will continue to be closely monitored by the Investment Committee on both a proactive and retrospective basis to assure continued success as well as continued commitment to a well-diversified portfolio and prudent asset allocation. The total portfolio gross of fee investment return for the year ended June 30, 2024, of 10.45%, reflected the continuing volatility of the global markets and economic conditions over the past few years. The last 5 and 10-year gross of fee rates of returns were 6.38% and 6.46%, respectively.

Detailed information concerning the System's investments may be found in the *Notes to the Financial Statements* beginning on *Page 16*.

The Benefits Committee met on a regular basis during the year, working primarily on pension reform with the funding initiatives, but also the business continuity plan, and administrative sustainability. The Committee motioned, and the Board approved, a letter to be sent to the City to fund the ADEC within five years. The Committee spent time reviewing various actuarial analyses and a previously performed member survey, all focusing on opportunities to enhance long-term sustainability of the plan. They discussed options and the administrative requirements for various possible changes. With guidance provided by the Board, the Committee plans to finalize their recommendation for Act amendments for Board approval in FY2025 and to forward to the City for consideration.

System administration focused on pension administration sustainability, the business continuity plan, and working with the City's transition to Workday. Updates include outsourcing transactional work to CBIZ, searching for a Jr. Benefit Analyst, and new data transmissions from Workday.

The staff works a modified schedule in the office and from home. The flexibility will be beneficial in maintaining a smooth transition in the event of a future business disruption.

The members continue to reach out for education on their benefit. The staff performed numerous station visits and one-on-one consultations. Recruit classes consist of two education sessions provided by staff. The first session details the member's eligibility and process involved for an In Line of Duty Disability and a Not In Line of Duty Disability while the second session conveys the pension benefits through a member's career including benefits at termination, death, and retirement. The retiree portal supported by the System's custodian bank, U.S. Bank, continues to provide functionality for our retirees. The portal provides retirees and beneficiaries in payment status access to their benefit payment information, including but not limited to tax withholding elections, 1099-R reporting, and banking information.

Active Member education modules are available through the City's E-Learning System. The City requires all active firefighters to review assigned education modules. Topics developed and deployed for the firefighters include disability pension benefit process, annual valuation process, and CFRS Benefits related to termination, divorce, and death. The CFRS monitors participation rates for each retirement module. The modules are available for active members to review at any time.

The Active Member Portal continues to be widely utilized by the active members. The portal provides active members the ability to perform estimates and pension benefit modeling. Once in the site, the member also has access to their annual pension statement, beneficiary information, Plan Benefit Q&A, and links to various other resources.

FINANCIAL INFORMATION

The System's internal control structure is designed to provide reasonable, but not absolute, assurance for the safeguarding of assets against loss from theft or unauthorized

use and to ensure the reliability and adequacy of the accounting records. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived, and (2) the valuation of costs and benefits requires estimates and judgment by the Board. Accounting data are maintained in a manner suitable for preparing financial reports in conformity with U.S. generally accepted accounting principles and for providing accurate and timely data to the City Council, Board, participants of the System, citizens, and other interested parties.

Budgetary Controls

The North Carolina General Statutes require the adoption of an annual budget for all funds except those for which expenditures are authorized by project ordinance, fiduciary funds, and internal service funds. The System is a fiduciary fund and is therefore exempt from budgetary requirements. However, the Board considers and adopts a budget for each fiscal year of operations and receives a quarterly budget report from the Administrator.

Accounting and Actuarial Systems

The financial reports of the System are prepared in accordance with U.S. generally accepted principles of governmental accounting and reporting promulgated by GASB. The accrual basis of accounting is used to record assets and liabilities and revenues and expenses. Revenues and expenses are recorded when earned or incurred, regardless of collection or disbursement. Capital assets are recorded at cost and depreciated through charges to expense over the estimated useful lives of the assets.

An annual actuarial valuation is performed by the System's actuary Cavanaugh Macdonald Consulting, LLC. The actuarially calculated contribution rates are developed using the entry age cost method. This cost method attempts to allocate the cost of each member's benefit as a level percent of compensation over the member's projected service from date of hire to date of retirement or exit. The calculated contribution rates include a current or "normal" cost for the year plus an amortization amount to reduce any unfunded accrued liability.

Revenues and Funding

Revenues essential to the sound funding of the System flow from three sources:

Contributions by Members: A System Member contributes an amount equal to the Member's eligible compensation multiplied by the current contribution rate of 12.65%. Member contributions are made on a tax-deferred basis and record is kept of each member's accumulated contributions. This accumulated amount is used for the Member's benefit if he or she remains in service. If the Member leaves service, he or she may withdraw the amount of his or her accumulated contribution. A Member with five or more years of membership service receives interest on his or her contributions if a refund is requested. A Member may, if he or she has five or more years of membership service, choose to elect a deferred annuity providing lifetime income commencing at age 60.

Contributions by the City of Charlotte: The City of Charlotte contributes an amount equal to the Member's eligible compensation multiplied by the statutory contribution rate of 12.65%. In this fiscal year, the City continued their agreement to incremental funding increases to 20.39%. Any other differences between the aggregate City and Member contributions are due to: (a) service purchases made by Members for which the City does not make contributions and (b) City contributions for those Members away on military deployments during which Members are not required to make contributions.

Investment Income: Investment income is the third source of System revenues and must be regarded as both a vital and major contributor to the System's strong funding status. Statutorily, since 1947, the Board has exercised responsibility for investing the System's assets in a prudent and diligent manner.

The reader of this Report should note that year-to-year investment return variation is a function of unrealized gains or losses on securities' valuations and the subsequent realization of gains or losses on the sale of investments and is not necessarily reflective of actual investment cash flow or income.

The primary critical concern of the Board is the System's funding adequacy. High funding levels are directly related to benefit security for participants. It is the responsibility of the Board to make prudent and sound investment decisions in order to increase the assets and thereby the funding level of the System. The Board has a goal of maintaining the funding of the System at or near 100%. Although the statutory contribution rate of 12.65% for the employer and employee has been sufficient for over 20 years, the combined Member and City contributions along with projected investment returns will not be sufficient in the long-term. In the short-term, the Sponsor is honoring their commitment to increase their funding to reach the Actuarial Determined Employer Contribution over the next 5 years. The Funding level is also influenced by changes to benefits and economic and demographic assumptions. The resulting funding level as of July 1, 2024, of 68.8%, is down from 70.1% as of July 1, 2023. Major contributing factors to the funding level decrease were negative investment returns based on the five-year actuarial smoothing method for asset returns, higher than anticipated salary increases, and a reduction in the investment rate of return.

A more complete discussion of System funding status may be found in the *Actuarial Report* found on the System's website, www.Charlottefireretire.com\Reports.

Expenses

The primary expense of the System relates to the purpose for which it was created, namely, the payment of benefits to retirees and their beneficiaries. Benefit payments and refunds to terminated members were responsible for 98.36% of all deductions from plan assets, which is 0.18% higher than the prior year. Administrative costs and depreciation accounted for 1.64% of deductions from plan assets for fiscal year 2024, compared to

1.82% for the prior year. A more detailed discussion of System expenses may be found in the *Management's Discussion and Analysis* beginning on <u>Page 11</u>.

OTHER INFORMATION

Independent Audit

Pursuant to North Carolina law, the System is required to undergo an annual audit by a certified public accountant. The Board has selected the independent certified public accounting firm of Cherry Bekaert LLP to provide these services. The report of the independent auditor on the financial statements and required supplementary information begins on <u>Page 9</u>.

Acknowledgments

The compilation of this Report is intended to provide complete and reliable information regarding the stewardship of the funds contributed by the members of the System and the City of Charlotte.

Several individuals assisted with the preparation of this report, and we wish to acknowledge their efforts and assistance. Tony Bass, Administrative Officer III; City Finance Staff, Betty Mattos, Chief Accountant; Kelly Kay, Accountant IV; India Gilliam Financial Account III; and Behailu Tefera, Accountant III, all who contributed many hours to ensure the accuracy and completeness of this report.

We hope that this year's report will be of interest to you and will be helpful in your understanding, evaluating, and assuring the continued success of the Charlotte Firefighters' Retirement System.

Respectfully Submitted,

Report of Independent Auditor

To the Board of Trustees Charlotte Firefighters' Retirement System Charlotte, North Carolina

Opinion

We have audited the accompanying financial statements of Charlotte Firefighters' Retirement System ("CFRS"), a component unit of the City of Charlotte, North Carolina, as of and for the year ended June 30, 2024, and the related notes to the financial statements, which collectively comprise CFRS's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective net position of CFRS as of June 30, 2024 and the respective changes in net position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis of Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in *the Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of CFRS and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about CFRS's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

cbh.com 9

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of CFRS's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about CFRS's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis and the Required Supplementary Information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the Required Supplementary Information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Management is responsible for the other information included in the annual report. The other information comprises the letter of transmittal and Board of Trustees and staff schedule but does not include the basic financial statements and our auditor's report thereon. Our opinion on the basic financial statements does not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

MANAGEMENT'S DISCUSSION AND ANALYSIS

This section presents Management's Discussion and Analysis of the Charlotte Firefighters' Retirement System's ("System") financial statements and the significant events, conditions, and decisions which affected the operations and performance of the Charlotte Firefighters' Retirement System during the year ended June 30, 2024.

Overview of the Financial Statements and Accompanying Information

- 1) <u>Fund Financial Statements.</u> The System presents Statement of Plan Net Position as of June 30, 2024, and Statement of Changes in Plan Net Position for the year then ended. This statement reflects resources available for payment of benefits as of year-end and the sources and uses of those funds during the year. For purposes of discussion and analysis, the condensed information shown below includes two fiscal years.
- Notes to the Financial Statements. The notes to the financial statements are an integral part of the financial statements and have additional detailed information to provide a better understanding of the financial statements. Information in the notes discloses the System's organization, benefits and contributions, how the asset values are determined, and contingencies and commitments.
- 3) <u>Required Supplementary Information.</u> The required supplementary information consists of a schedule concerning the funding status of the System, employer contributions, and this Management's Discussion and Analysis.

Financial Analysis

The Charlotte Firefighters' Retirement System provides retirement benefits to the uniformed firefighters of the City of Charlotte. The System benefits are funded through member and employer contributions and investment income. As reflected in the Statement of Changes in Plan Net Position on *Page 15*, the net position of the System increased approximately \$42.8 million during the year ended June 30, 2024. These results reflect the extremely volatile Global Market environment.

Funded Ratio

The funded ratio of the plan measures the ratio of actuarially determined assets against actuarial liabilities and is a good indicator of the fiscal strength of a pension fund's ability to meet obligations to its members. The System is required by the Act to perform an annual actuarial valuation. The results of the actuarial valuation report completed in accordance with principles of practice prescribed by the Actuarial Standards Board as of July 1, 2024, showed the funded status of the System decreasing to 68.8% from 70.1% on July 1, 2023. The System's valuation uses a 5-year asset smoothing method based on market value of assets. The System had an unfunded liability of \$301 million for the year ended June 30, 2024, compared to the \$276 million for the year ended June 30, 2023. Liabilities increased due to various reasons including investment losses over the past few years, and both individual salary increases, and total projected payroll were higher than expected.

Contributions and Income

Additions to Plan Net Position include employer and member contributions and net income from investment activities. Member contributions were approximately \$13.7 and \$12.6 million for the years ended June 30, 2024, and 2023, respectively, an annual increase of \$1.1 million for fiscal year 2024. The member rate is 12.65% of eligible compensation, set by statute and made on a tax-deferred basis. The employer rate is set at 12.65% by statute. However, the City has committed to pay 20.39% of eligible payroll beginning in fiscal year 2024. Employer contributions were approximately \$20.6 million and \$17.6 million for the years ended June 30, 2024, and 2023, respectively an annual increase of \$3 million for fiscal year 2024 and \$2.7 million in fiscal year 2023. The variances between employer and member contributions are mainly attributed to the City's committed increase in employer contributions offset by a minor amount attributable to prior government and military service purchases made by members.

Net investment gain of approximately \$43.7 million during fiscal 2024 and \$49.6 million during fiscal 2023, resulted in returns of 10.45 % and 8.80%, respectively as measured by Callan, LLC. The positive returns in investment income in 2024 were largely the result of all markets performances, with the exception of Real Estate. The System performed below its composite benchmark on a relative basis by 53 basis points and performed below the Callan Public Fund Sponsor Database median return by 68 basis points. For the 5-year period ended June 30, 2024, the System returns were 6.38% compared to its composite benchmark returns of 6.87% and its actuarial assumed rate of return of 7.00%.

The most significant deduction from investment income is investment manager fees. The System's assets are managed 100% by external investment advisors hired by the Board of Trustees. Many of these managers are paid a fee based on the assets under management. Some of the active

managers are paid a base fee plus the possibility of performance incentive. Investment expenses were approximately \$2.6 million for the year ended June 30, 2024, and were approximately \$2.4 million for the year ended June 30, 2023.

Prudent investment of the System's assets, diligent monitoring of investment advisors, and a commitment to periodic allocation rebalancing in addition to conservative administrative costs has enabled the System to achieve a modest funded status. The Board of Trustees is committed to maintaining the System at or near 100% funding and continue to dedicate its efforts to that goal.

Benefits, Refunds, and Expenses

The most significant recurring deduction to Plan Net Position is benefit payments. During fiscal 2024, the System paid approximately \$49.4 million, up from \$46.7 million in fiscal 2023, in benefits and refunds. The increased level of payments in fiscal year 2024 was due primarily to new retirements and vested and non-vested contribution withdrawals. The System does not provide an automatic Cost of Living Adjustment (COLA). Due to the funding ratio of the System, the Board of Trustees was unable to provide a bonus payment for retirees and beneficiaries receiving benefits as of January 1, 2023.

The administrative costs of the System represented approximately .12% of the ending net position in fiscal year 2024 decreased from .13% from fiscal year 2023. The decrease in costs were primarily due to decreased travel and training in fiscal year 2024.

Plan Assets

Investments increased approximately \$42.9 million in 2024. The System invests in traditional investment categories, it also does not have a securities lending program. The market gain in value of plan assets is a result of market volatility related to U.S. and global markets rebounding after the COVID-19 pandemic. Real Estate was the only asset class that yielded negative returns.

The System values its assets at "fair value" as discussed in accounting policies footnote 2(g) (Page 22) to the financial statements. Fair value is the value the System expects to receive in a current sale between a willing buyer and a willing seller that are equally motivated; that is, other than a forced or liquidation sale. The value of publicly traded securities, stocks, and bonds are determined using the latest quote from national exchanges or pricing services. These prices reflect the securities' pricing at the close of business and can be affected by such factors as liquidity, current events, and the size of lots being traded. Real Estate is valued using appraisal values by approved appraisers who meet professional qualifications. The appraisal process involves a significant amount of judgment and estimates. As a result, the ultimate value on the sale of the asset may differ from the appraised value.

Contacting the CFRS Management

This financial report is designed to provide the City Council, participants of the System, citizens, taxpayers, and other interested parties with an overview of its operations and financial position and to demonstrate its accountability. Questions concerning this report or requests for additional information should be directed to the Administrator, Charlotte Firefighters' Retirement System, 428 East 4th Street, Suite 205, Charlotte, NC 28202.

The notes to the financial statements are an integral part of this statement.

1. PLAN DESCRIPTION:

The Charlotte Firefighters' Retirement System (the "System"), a single-employer, defined benefit plan, was organized pursuant to the 1947 Session Laws of the State of North Carolina, for the purpose of providing retirement, disability, and death benefits to civil service employees of the Charlotte Fire Department. Membership is mandatory at the date of employment. The System is administered by an eleven-member Board of Trustees. The City of Charlotte's ("City") payroll for members covered by the System for the year ended June 30, 2024, was \$99 million.

At July 1, 2024 the System's membership consisted of:

Inactive members or beneficiaries	
currently receiving benefits	876
Inactive members entitled to but not yet	
receiving benefits	20
Active plan members	<u>1,115</u>
Total	<u>2,011</u>

Benefits vest after 5 years of credited service. The requirements for normal service retirement are: (a) any age with 30 years of service credit, (b) age 50 with 25 years of service credit, or (c) age 60 with 5 years of service credit. The normal service retirement monthly benefits are 2.6% of final average salary multiplied by the years of credited service. Salary in the final year includes portions of cashed-in vacation and sick days. Final average salary is the monthly average received by the member during any 2 consecutive years of membership which produces the highest average and is contained within the last 5 years of membership. The minimum monthly benefit is \$902.75. Members less than age 50 may elect early retirement with 25 years of service credit. Early retirement benefits are reduced by 3% for each year the early retirement date precedes age 50.

If an employee ceases employment with less than 5 years of service credit, accumulated employee contributions are refunded to the employee or designated beneficiary. After 5 or more years of service, the employee may elect to receive a refund of the employee's accumulated contributions with interest compounded annually at 4% or receive an accrued benefit at age 60.

Death and disability benefits are also available. Benefit and contribution provisions are established by State law and may be amended only by the North Carolina legislature.

Pursuant to the Act that established the System, the City is required to fund 12.65% of eligible retirement pay. The Act establishes the contribution rate pursuant to the Board of Trustees'

recommendation and approval by the Charlotte City Council. The City began to increase its funding effective July 1, 2020, by 2% each year as an initial step to a long-term funding solution. In early 2024, the City agreed to pay an employer contribution increase of 4.914% resulting in a total City contribution of 25.304% beginning in fiscal year 2025. The members' contribution rate is 12.65%. The administrative costs are funded through contributions and investment earnings.

The contributions made by the City and the members of the System for the year ended June 30, 2024, were as follows:

		Percent of Covered
	In Dollars	<u>Payroll</u>
Contributions made by -		
City	\$13,700	20.90%
Members	20,621	<u>13.88</u>
Total	<u>\$34,321</u>	<u>34.78</u> %

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

a. Basis of Presentation

The System provides services exclusively to the City and the City is financially accountable for the System; therefore, the System is included as a blended component unit and reported as a Fiduciary Pension Trust Fund in the City's basic financial statements.

The financial statements are presented in accordance with generally accepted accounting principles ("GAAP") as promulgated by the Governmental Accounting Standards Board ("GASB"), which establishes standards of financial reporting for state and local government, including pension plans administered through trusts that meet certain criteria.

b. Basis of Accounting

The financial statements are presented on the accrual basis of accounting. Property is stated at historical cost. Depreciation is computed using the straight-line method over an estimated useful life of 25 years for buildings and 5 years for intangible assets. Contributions are recognized in the period in which the contributions are due. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan. Interest and dividend income is reported as earned. The net appreciation in the fair value of investments includes realized gains and losses on investments that were both bought and sold during the year.

c. Cash and Cash Equivalents/Investments

Short-term, highly liquid investments are considered cash equivalents. Short-term refers to investments with an original maturity of three months or less at date of acquisition. Highly liquid investments are those that are readily convertible to known amounts of cash and so near their maturity that the risk of changes in value because of changes in interest rates is insignificant.

The carrying amounts of deposits and investments were \$6,692 and \$639,050 on June 30, 2024.

Deposits

All deposits of the System are made in board-designated official depositories and are insured or collateralized with securities held by the System's agent in the System's name. The System has no formal policy regarding custodial credit risk for deposits. The bank balance on June 30, 2024 was \$30.

Investments

The North Carolina Act ("Act"), which established the System, requires the Board of Trustees to act with the same care, skill, prudence, and diligence under the circumstances then prevailing, that a prudent person acting in a similar capacity and familiar with those matters would use in the conduct of a similar enterprise with similar aims. The Act requires the Trustees to design an investment plan to further the purpose of the System by giving consideration to the following: (a) diversification of investments, (b) liquidity and return relative to cash flow needs, and (c) projected return. In accordance with the Act, the Board of Trustees has developed and periodically revises a policy statement of investment goals, objectives, and guidelines, which specifically define vehicles that may be used for the investment of System funds. The System invests in United States government securities, corporate bonds, common stocks, and mutual funds.

The investments and maturities on June 30, 2024, were as follows:

Investment type			Investment M	aturities (in Yea	ars)
	Fair Value	Less than 1	1 - 5	6 - 10	More than 10
U.S. Treasuries	\$ 16,347	\$ 698	\$ 5,964	\$ 5,167	\$ 4,518
U.S. Agencies	46,474	196	315	878	45,085
Corporate bonds	58,898	1,315	11,378	12,313	33,892
Common stocks	76,892	N/A	N/A	N/A	N/A
*Mutual funds	440,439	N/A	N/A	N/A	N/A
Total	\$ 639,050	\$ 2,209	\$ 17,657	\$ 18,358	\$ 83,495

^{*}Mutual Funds include \$26,482 investments measured as fair value in the investment fair value hierarchy table.

The System categorizes its fair value measurements within the fair value hierarchy established by GAAP. The hierarchy is based on the valuation inputs used to measure fair value of the assets. Level 1 inputs are quoted prices in an active market for identical assets; Level 2 inputs are significant other observable inputs; and Level 3 inputs are significant unobservable inputs. The following is a summary of the fair value hierarchy of the fair value of investments as of June 30, 2024:

Investment by fair value level	6/30/2024	Using in Ac	Fair Value easurements g Quoted Prices tive Markets for entical Assets (Level 1)	Using Q Active Ma	e Measurements uoted Prices in rkets for Similar Assets Level 2)	Fair Va Measure Using Unob Inpu (Leve	ments oservable ts
U.S. Treasuries	\$ 16,347	\$	14,228	\$	2,119	\$	-
U.S. Agencies	46,474	\$	-		46,474	\$	-
Corporate bonds	58,898		-		58,898		-
Common stocks	76,892		76,892		-		-
Mutual funds	26,482		-		26,482		-
Total investments by		1		172		10	45
fair value level	225,093	\$	91,120	\$	133,973	\$	
Category	Investment s Measured		Unfunded ommitment	Redemp	ition Frequency	Redemptio Perio	
U.S. equity	\$ 163,759			Daily		N/A	
International equity	173,028		25 <u>-</u> 2	Daily		N/A	
Fixed income	50,509		1521	Quarterly		45 Days	
International fixed income	26,661		22	Quarterly -	1st day of Qtr	N/A	
	413,957	\$	-				
Total investments	\$ 639,050			•			

Investments classified in Level 1 of the fair value hierarchy are valued using quoted prices in active markets. Level 2 debt securities are valued using a matrix pricing technique. Matrix pricing is used to value securities based on the securities benchmark quoted prices.

Interest Rate Risk. The System does not have a formal investment policy that limits investment maturities.

Credit Risk. The System is authorized to invest in bonds with a quality rating of no less than investment grade and unrated U.S. Treasuries and Agencies. The quality ratings of investments in fixed income securities as described by nationally recognized statistical rating organizations on June 30, 2024 were as follows:

Quality Rating	F	air Value	Percentage of Portfolio
AAA	S	7,144	5.87%
Ba1 > Aa2	- B	51,754	42.52%
Total credit risk debt securities		58,898	48.39%
U.S. Government fixed income securities:			
Government National Mortgage Association		5,797	4.76%
U.S. Treasury		16,347	13.43%
Not rated	452	40,677	33.42%
Total fixed income securities	S	121,719	100.00%

Custodial Credit Risk. The System has no formal policy regarding custodial credit risk for investments.

Concentration of Credit Risk. The System limits the amount of equity holdings in any one company to 8% or benchmark weight +1%, whichever is greater, of the market value of the portfolio; the amount of equity holdings in any one sector to 30% of the fair value of the portfolio; and the amount of fixed-income securities in any one corporation to 5% of the fair value of the portfolio without the consent of the board. There is no limit on securities backed by the full faith and credit of the U.S. Government or any of its instrumentalities.

d. Concentrations

The System had individual fixed income or equity investments at June 30, 2024 managed by the following organizations that represented 5% or more of the System's net investments:

State Street Global Advisors	37%
Barrow Hanley	10
Neuberger Berman	9
Morgan Stanley	5
Wellington Management Company	5
Lazard / Wilmington Collective Trust	5

In addition, the System owned individual assets at June 30, 2024 that represented 5% or more of the System's net investments:

State Street Global Advisors Russell 1000 Index SL	25%
State Street Global Advisors MSCI EAFE Index	7
State Street Global Advisors Bond Market Index Fund	5
Morgan Stanley Core	5
Wellington Management Company	5
Lazard / Wilmington Collective Trust	5

e. Rate of Return

For the year ended June 30, 2024, the annual money-weighted rate of return on the System's investments, net of pension plan investment expense, was 10.13% The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

f. Method Used to Value Investments

Investments are reported at fair value. Securities and mutual funds traded on a national or international exchange are valued at the last reported sales price at current exchange rates. Mortgages are valued on the basis of future principal and interest payments and are discounted at prevailing interest rates for similar instruments. The fair value of real estate investments is based on independent appraisals. Investments that do not have an established market are reported at estimated fair value.

g. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

h. Capital Assets

Capital asset activity for the year ended June 30, 2024, was as follows:

	Beg	ginning					Et	nding
	Ba	lance	Inc	rease	Dec	rease	Ba	lance
Capital assets, being depreciated:								
Buildings	\$	440	\$	-	\$	8.5	\$	440
Intangibles		232			v	107		232
Total capital assets being depreciated		672	- No		8	_	10	672
Less accumulated depreciation for:								
Buildings		363		21				384
Intangibles	983	222	7 <u>2</u>	10	22	-	89	232
Total accumulated depreciation	350	585	<u> </u>	31	198	_	84 <u> </u>	616
Capital assets, net	\$	87	\$	(31)	\$	85	\$	56

3. NET PENSION LIABILITY:

The components of the net pension liability as of June 30, 2024, were as follows:

Total pension liability	\$1,166,621
Plan net position	(646,560)
Net pension liability	\$520,061
Plan fiduciary net position as a percentage of the total liability	55.42%

Actuarial Assumptions. The total pension liability was determined by an actuarial valuation as of July 1, 2024, using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation 2.50%

Salary increases 3.75-9.00%, including inflation

Investment rate of return 7.00%, net of pension plan investment expense, including

inflation

Mortality rates were based on the Pub-2010 Safety Retiree Headcount-Weighted Below Median Mortality Table adjusted by 87.5% for males projected generationally with Scale MP-2019 for the period after service retirement. The Pub-2010 Safety Disabled Retiree Headcount-Weighted Mortality Table projected generationally with Scale MP-2019 is used for the period after disability retirement. The Pub-2010 Safety Employee Headcount-Weighted Mortality Table projected generationally with projection Scale MP-2019 is used for deaths in active service.

The actuarial assumptions used in the July 1, 2024, valuation were based on the results of an actuarial experience study for the period July 1, 2014 – June 30, 2019, with the exception of the assumed investment rate of return which was adopted by the Board on July 28, 2022.

The long-term expected rate of return on the System's investments was determined using a lognormal distribution analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

	<u>Target</u>	Long-Term Expected
Asset Class	<u>Allocation</u>	Real Rate of Return
Broad Domestic Equity	36.0%	5.8%
International Equity	26.0%	6.6%
Domestic Fixed Income	23.0%	1.0%
Non US Fixed Income	5.0%	0.3%
Real Estate	10.0%	4.9%
Total	<u>100.0%</u>	

Discount Rate. The discount rate used to measure the total pension liability was 5.40%. The projection of cash flows used to determine the discount rate assumed that plan member and employer contributions will be made at the current contribution rates. Based on those assumptions, the System's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members until the plan year ending June 30,

2054. Therefore, the long-term expected rate of return on pension plan investments of 7.00% was applied to all periods of projected benefit payments through June 30, 2054 and the applicable municipal bond index rate of 3.94%, based on the monthly average of the Bond Buyers General Obligation 20-year Municipal Bond Index Rate published weekly by The Bond Buyer (www.bondbuyer.com) as of June 30, 2024, was applied to all periods of projected benefit payments after June 30, 2054. The Single Equivalent Interest Rate (SEIR) of 5.40% was used to determine the total pension liability as of June 30, 2024.

Sensitivity of the net pension liability to changes in the Discount Rate. The following presents the net pension liability of the System as of June 30, 2024, calculated using the discount rate of 5.40%, as well as what the System's net pension liability would be if it were calculated using a discount rate that is one percentage point lower (4.40%) or one percentage point higher (6.40%) than the current rate (\$ thousands):

	1%	Current	1%
	Decrease	Rate	Increase
	(4.40%)	(5.40%)	(6.40%)
System's net pension liability	\$ 682,622	\$ 520,061	\$ 386,505

4. INTERNAL REVENUE STATUS:

The Internal Revenue Service (IRS) has determined that the System meets the requirements of Section 401(a) of the Internal Revenue Code and is exempt from Federal income tax under Section 501(a) of the Code.

5. ADOPTION OF NEW ACCOUNTING PRONOUNCEMENTS:

As of July 1, 2023, the City adopted the provisions of GASB Statement No. 100, Accounting Changes and Error Corrections—an amendment of GASB Statement No. 62, is in effect for fiscal years beginning after June 15, 2023. This accounting pronouncement is intended to streamline the reporting of accounting changes and error corrections and the related disclosures in governmental financial reporting.

GASB Statement No. 100 represents a significant step towards improving the quality and consistency of financial reporting for governmental entities. By adhering to these updated standards, entities can enhance the transparency and reliability of their financial statements, thereby fostering greater trust and confidence among stakeholders.

One of the challenges with the prior period adjustment guidance in GASB 62 was that financial statement preparers were unsure how to apply the guidance in certain situations, which led to a lack of consistency across governments. The differences in application meant governmental entities were reporting similar restatements in different ways. One government might report an

accounting change, while another government might report a similar change as an error correction. GASB 100 clarifies the accounting change categories and provides guidance for reporting and disclosing those changes.

GASB 100 will apply to all governmental entities and will impact how entities define an accounting error or change. The standard clarifies what represents an accounting change or an error correction and guides how these changes should be presented in the financial statements.
