

Hello all,

As we continue to grow our museum, we are anticipating a lot of need for volunteer assistance. We would like to start a list and fill the positions listed below. The volunteers do not have to work for Charlotte Fire Department. We would especially like to have representatives from other departments in Mecklenburg County as well as any interested members from the community. Events that we attend happen both during the day and night throughout the entire week.

- **Volunteer Coordination:** This is volunteer position open to anyone that has a desire to assist the museum by organizing and scheduling events. This position can include receiving payments for merchandise, setting up and taking down equipment, and organizing within and outside of CFD the resources needed for each event.
- **Event Volunteer/Lead:** This is an option for those people that want to help but have limited time. This pool is designed to be the group of people that the volunteer coordinator communicates with to be able to staff events. We will designate an Event Lead that will ensure the event goes well from initial planning to conclusion.
- **Research Volunteers:** These positions are to help with all and any research needed as well as inform our virtual museum and social media postings (take a look at <https://www.charlottefiremuseum.org/>).
- **Collections Volunteers:** These volunteers will work to develop our collections tracking and identification.

Please contact a committee member below about available positions of interest as well as with any questions.

Tommy Clymer
Chad Michael
Ben Atwell
Neal Conti
Facilities Coordinator, Michael Parker
Maria Bostian
Jonathan Kiser
Michael Grant

Thank you for your consideration and your interest in keeping our history alive. Please feel free to pass this information on outside of our department and to retirees.
